

POWER PACK®
Industrial Solution

POLYESTER STRAP
THE ADVANCED PACKAGING SOLUTIONS

WHO WE ARE

Our company, PT. Power Pack Industrial Solution was established in 2007, located in Gresik, East Java, Indonesia. We manufacture POWERPACK® PET Polyester Strap which is an environmental friendly packaging product with many advantages for industrial costumers.

We are largest PET Polyester Strap Strapping band manufacturer in Indonesia East area with over fifteen years of manufacturing experience. We continuously develop our R&D team to produce higher grade strapping that can be used with manual or fully automatic packaging machines.

POWERPACK® POLYESTER (PET) STRAPPING

POWERPACK® is an excellent Polyester (PET) strapping material that combine the high strenght intensity of steel straps and flexibility of PP straps. Having high elongation, Polyester (PET) strapping can absorb shocks and impacts better than steel strapping during transportation and handling goods. With this excellent elongation features, many industries have subtituted the use of steel strapping with a Polyester strap having a lower breaking strength.

POWERPACK® strapping is manufactured using extrusion lines, equipped quality control and test machinery ensuring a high standard of quality.

SPECIFICATION OF POWERPACK® STRAPPING

Code	Grade	Widht (mm)	Thickness (mm)	Strenght (kgf)	Lenght (m)	Elongation	Surface	Core Diameter x Core Face (mm)	Color
Packaging Straps									
PWP 1206	M/A	12	0.6	250	2500	12%	Embossed	406 x 152	■

EASY HANDLING

POWERPACK® is easy to handle as the straps are light in weight, with density between 1.30-1.38/cm³, which is only one sixth of the density of steel tape (7.8g/cm³).

REDUCE PACKING COST

POWERPACK® can save up to 50% compared with using steel strapping.

SAFE

During packing and unpacking POWERPACK® straps have no sharp edges, safe handling, eliminate injuries to personel.

ENVIRONMENTAL FRIENDLY

POWERPACK® straps are recyclable.

WEATHER RESISTANT

POWERPACK® straps are not affected by water and ultraviolet light, do not rust unlike steel straps, which create disposal problem.

SHOCK RESISTANT

Strap tension remains tight in cases where package may shrink during storage or transportation.
